

FULL LIST OF PAST PROJECTS

- 1 **Global System Dynamics and Policy (GSDP)** (2010–2013): FP7 coordination and support action to develop a research program for the study of global systems in an ongoing dialogue with decision makers. GSDP operated as an open network evolving through workshops, working papers, publications, and open conferences.
- 2 **“Mainstreaming of climate risks and opportunities in the financial sector”** (2006-2009): Climate-related opportunities and risks in insurance, asset management and lending (with a focus on asset management). List of Publications: <http://germanwatch.org/climain/publications.htm>
- 3 **CIRCE** (2007–2010): FP6 Project (Climate Change and Impact Research: the Mediterranean Environment) Examination of natural and socio-economic consequences of climate change in the Mediterranean region. Publication: Regional Assessment of Climate Change in the Mediterranean, Advances in Global Change Research (2013).
- 4 **Investment for a climate-friendly Germany (IKEP)** (2007–2008): Assessing the integrated energy and climate program of the German federal government and examining economic implications of German climate policy. Publication: **“Investment for a climate-friendly Germany”** (Jochem, E. Jaeger, C.C. et. al (2008).
- 5 **Escaping the growth crisis (WWK)** (2009): The study illustrates how unemployment can be brought below two million by the year 2020 with the help of an ecological investment program. Publication: Escaping the growth crisis. (Jaeger, C.C., Horn, G., Lux, T. (2009)).
- 6 **A New Growth Path for Europe. Generating Prosperity and Jobs in the Low-Carbon Economy** (2010–2011). The study illustrates how the reduction of EU-emissions by 30 % can contribute to leading the European economy on a new growth path characterized by less emissions, more jobs and higher GDP. Publication: **“A New Growth Path for Europe. Generating Prosperity and Jobs in the Low-Carbon Economy”** ((Jaeger, C.C., Paroussos, L., Mangalagiu, D., Kupers, R., Mandel, A., Tàbara, J.D., Meißner, F., Lass, W. (2011))
- 7 **GSD – Global System Dynamics and Policies** (2008–2010): FP6 project on how research results on complex problems (climate change, sustainable cities, energy security and social inequality) can be discussed in a dialogue between science and politics.
